HEALTH AND SAFETY POLICY

Fowlerex Technologies Pty. Ltd. designs, develops, manufactures, installs / erects, commissions and tests Air Pollution Control Equipment for industrial and process applications in Australia and overseas countries.

Fowlerex Technologies has a strong commitment to conducting all its business activities within a Management System culture.

Fowlerex is committed to operating and maintaining a safe work environment at its own premises and any Client facilities at which its employees work. For all Projects where the work is carried out on the Client's premises Fowlerex will provide a site Safety Manual and Plan to cover all Legislative requirements in regard to Safety. To demonstrate this commitment Fowlerex has implemented and maintains a WHS Management System to ISO 45001 with Third Party Certification. Further we will ensure our operations remain compliant to the WHS Act and WHS Regulations at all times.

By establishing Safety Objectives and Targets performance will be measurable on a regular basis to continuously improve the work / workplace by the elimination of work-related injuries and illnesses.

The objectives and targets for safety are contained in the Health and Safety Management plan and relate to:

- Hazard Identification
- Incident / Accidents
- Injuries
- Health surveillance

The objectives/targets shall be reviewed annually and communicated to all Employees.

The WHS consultation process allows all employees to actively participate in the achievement of a safe work environment and is an important part of its commitment.

A handwritten signature in blue ink, appearing to read "Brett Hawkes", is written over a horizontal line.

Brett Hawkes – General Manager

SAFETY IS NO ACCIDENT
